Integrated Online
Student Registration

A flexible Application & Lottery Management system for all charter schools

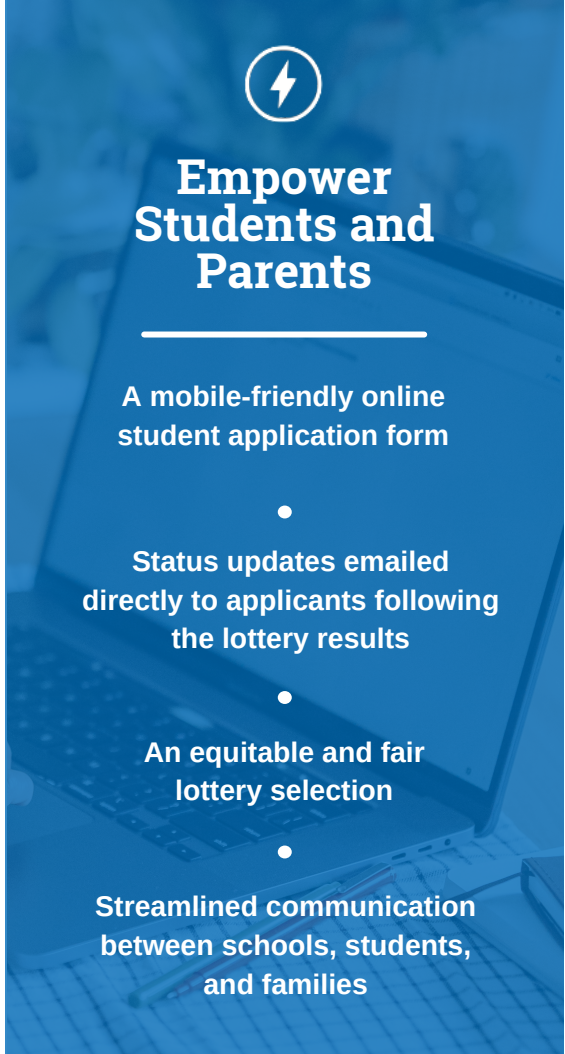

Facilitate an effortless enrollment process for your staff, students, and families.

Reduce Administrative Burdens

- Collect and view all online applications in one place
-
- Run a randomized and compliant lottery with configurable settings
-
- Account for siblings, children of staff members, and limits based on location or grade level
-
- Manually accept, reject, or place students on the waitlist as needed

Empower Students and Parents

- A mobile-friendly online student application form
-
- Status updates emailed directly to applicants following the lottery results
-
- An equitable and fair lottery selection
-
- Streamlined communication between schools, students, and families

School Pathways has over 20 years of experience working with K-12 educators. We provide flexible, reliable solutions that simplify school operations and foster student success in a variety of learning environments.
